RWS

Course Title: XPP Fundamentals eLearning

Learning Objectives: The aim of this course is to provide you with an overview of the operational aspects of XPP.

Topics covered include:
- Introduction to XPP
- Documentation
- Using PathFinder
- Using the XyView window
- Editing tools
- Composition and pagination
- Streams
- Job setup
- Importing data
- Output

Key Benefits: This course provides foundational learning for any new XPP user. Course participants will get an introduction to XPP and learn how to use the XPP user interfaces to navigate and work inside documents. This course will prepare participants to import XML, create and modify documents, use XPP style libraries, output to print and PDF and export HTML. This is a broad introduction to XPP and a must for all business users.

Target Audience: This course is for:
- Style Developers
- Page Editors
- Production Managers
- XPP Administrators

Prerequisites: The course is aimed at individual students with little or no exposure to XPP prior to taking the course. Students will benefit most from this course if they have already been exposed to or worked with non-XPP page composition systems. Further benefits will accrue to those students who have experience with XML markup.

Course Delivery Mode: This course is available in an eLearning delivery mode and is accessed via the RWS University online learning portal. The self-paced, on-demand course will take an estimated 3.5 hours to complete. The eLearning format enables the learner to bookmark their place in the course and restart when ready. Once the course has been taken the learner can go back to any of the modules.

Further Information: For further information, please contact us at learn@rws.com

Course Outline

Module 1: Introduction to XPP

Module 2: Documentation
- XPP Documentation
- Knowledge Checks

Module 3: Using PathFinder
- Using PathFinder
- Knowledge Checks

Module 3: Using the XyView window
- Production workflows in XyView
- Paging tools in XyView
- Knowledge Checks

Module 4: Editing tools
- XML Markup

- Composition processes
- Composition log
- Status window
- Knowledge Checks

Module 6: Streams
- Stream types
- Footnotes
- Pickups
- Knowledge Checks

Module 7: Job Setup
- Create a new Job
- Division ticket
- Style bundle
- Knowledge Checks

Module 8: Importing data
- Import process
- Transformation tools
- Xychange and XSL
- Knowledge Checks

Module 9: Output
- Output process
- Print profile
- Knowledge Checks

About RWS

RWS Holdings plc is the world's leading provider of technology-enabled language, content management and intellectual property services. We help our customers to connect with and bring new ideas to people globally by communicating business critical content at scale and enabling the protection and realization of their innovations.

Our vision is to help organizations interact effectively with people anywhere in the world by solving their language, content and market access challenges through our collective global intelligence, deep expertise and smart technology.

Customers include 90 of the globe's top 100 brands, the top 10 pharmaceutical companies and approximately half of the top 20 patent filers worldwide. Our client base spans Europe, Asia Pacific, and North and South America across the technology, pharmaceutical, medical, legal, chemical, automotive, government and telecommunications sectors, which we serve from offices across five continents.

Founded in 1958, RWS is headquartered in the UK and publicly listed on AIM, the London Stock Exchange regulated market (RWS.L).
