

Tridion

GraphQL eLearning

This course aims to show learners how to use the Public Content API and GraphQL to retrieve published content from Tridion Sites and Tridion Docs.

TARGET AUDIENCE

This eLearning course is targeted at developers and implementers of digital experiences using the Public Content API and GraphQL with Tridion Sites and Tridion Docs.

LEARNING OBJECTIVES

By the end of this course, you will:

- Understand GraphQL as a concept.
- Explain how GraphQL works in Tridion.
- Understand how the headless concept works with Tridion.
- Know the basic architecture of Tridion and how it works.
- Know how to work with GraphQL.
- Understand some of the queries that you can run in GraphQL for both Tridion Sites and Tridion Docs.
- Know how you embed Tridion GraphQL content into a website.

COURSE DURATION

The course is 2 hours 30 minutes in duration and can be viewed and then used as a post-course reference tool.

COURSE DETAIL

The course will cover the following topics:

- Introduction to GraphQL
- What is GraphQL in Tridion
- Headless Concept
- Architecture
- Working with GraphQL
- Query Examples
- Embedding Content into a Website

DELIVERY

This eLearning course is hosted on the RWS University learning portal. Each user will be given individual access to the course and will be able to take it at their own pace.
