

Tridion Sites 10 Technical Delta training

This course is designed to help teams and their executive sponsors understand, prepare for, and explain the benefits of Tridion Sites 10 to their internal stakeholders, users, and development teams.

TARGET AUDIENCE

Decision-makers and technical team members considering or evaluating Tridion Sites 10, especially those who are familiar with a previous version of Tridion Sites. Editors may optionally want to attend the first part of the training to learn about new UI features but should be aware that there will be technical topics and code examples for the rest of the course.

LEARNING OBJECTIVES

This instructor-led course will enable teams and their executive sponsors to understand the features, benefits, and differences in Tridion Sites 10 compared to previous versions.

DELIVERY

The course can be conducted either at your location or remotely, with delivery carried out by RWS Professional Services.

COURSE DETAIL

The course will cover the following topics:

- Experience Space UI improvements and extensibility
- Enhancements to Access Management and Add-on Management
- Updates to performance, security, and platform support

COURSE DURATION

The course is delivered over 1 day. If delivered remotely, it will be scheduled over two to three remote sessions, including presentation, questions and answers, and interaction with Tridion Sites 10 training environments.
